

World Town Planning Day 2021

Ward Centered Urban Planning

08 November 2021

Planning Innovation Competition on WTPD-2021

An innovation that can solve a problem in Urban Life!

Innovation in urban planning can bring about positive changes to the lives of people. Explore your idea with **innovative approaches in any field of urban and Regional Planning in Bangladesh** and **Bangladesh Institute of Planners (BIP)** will showcase it on the World Town Planning Day-2021. To revive the livability of cities and communities, propose your innovative idea to solve any planning problems or issues from planning Perspective. Your idea should have a specific problem statement, acceptability in accordance with the existing policies and laws of the country.

-
- Submit your idea within **200 words** including the core idea, objective of the innovation and expected outcomes from it within **November 15, 2021**.
 - After initial selection, you have to submit your idea in detail.
 - The best innovative ideas will be selected for final presentation on WTPD-2021
 - The best innovative ideas will be awarded by BIP.
-

Group formation:

- Team Name : X
- Team member : **02** (preferred) [Maximum3]
- Team formation: This competition is open for Planners and Planning Students as well. Graduate Planners and Current students of BURP or MURP in any university can participate here.

General Guidelines

- It is a competition open to all Planners and Planning Students. You can submit any idea regarding urban and regional planning issues (e.g. urban planning, housing, community and utility facilities, water supply and sanitation, climate change adaptation, transportation planning, rural development etc.).
- You need to submit a brief of your innovative idea within 200 words and send it to wtpd.bip@gmail.com
- The submission should include the main theme of the core idea, objective of the innovation and expected outcomes from it.
- Submitting prototype of your idea is not compulsory. If you can present your idea without making any prototype it will be accepted. But your idea should incorporate the different aspects of your innovation clearly.
- The competition focuses on solving problems in urban life from professional aspects that would help relevant planning organizations and development authorities.
